

Welcome to the New Standard in Smoking Filtration by Scientific Inhalations

SI's Compact Triple-Filtered Water Pipe kit comes with an 18mm glass bubbler, with built-in filter chamber, a mouth piece, a bowl, two pics, plus one container of Activated Virgin Coconut Carbon and one container of Organic Cotton.

Instructions

1. Pour cold water into bubbler until you reach the "water line".
2. Fill the bubbler's central filter chamber with Activated Virgin Coconut Carbon leaving approximately 1/4" of airspace between the bottom of the joint frost and the Activated Virgin Coconut Carbon.
3. Place the glass bowl into the female joint that is on the top of the bubbler with Activated Virgin Coconut Carbon making sure it is securely connected.
4. Take one Organic Cotton ball and unroll it, pulling off about 1/4 of the cotton ball. Unroll the Organic Cotton so as to loosen it to help get a good draw.
5. Take your pic and push the Organic Cotton into the cotton chamber making sure that it is loose. (DO NOT PACK THE COTTON INTO THE CHAMBER.)
6. Place the mouth piece into the female joint on the top of the glass cotton chamber.
7. Start off with very small inhalations and over time you will determine how much of a draw you can take.

Over time you will find what your personal needs are with regard to how often to change your carbon, cotton, and water. We suggest you change your Activated Virgin Coconut Carbon when you notice that the cresol/tar has covered the carbons (approximately 100 inhalations); and to change your Organic Cotton when you notice that the cotton is turning a brownish color.

We also suggest that you get into the habit of changing your water in the

water pipe at the same time that you replace your Organic Cotton. The filtration works so well, that your water will continue to look clean even when there are impurities within.

As for washing your water pipe simply rinse it with rubbing alcohol and warm water or use a commercial cleaner found at your local smoke shop.

Most Importantly –

Enjoy! Your Health is Your Wealth!
